

As we enjoy the holidays and wrap up an incredible year of TrueNAS videos from your favorite creators, let us hold dear to some of the most beloved videos of the year. Sit back, relax, and be sure to share your favorite video in the new [TrueNAS Forums poll](#).

1) [What Can a \\$60,000 Media Server Do?](#) by Snazzy Labs

Get a behind-the-scenes look at what it's like running one of the most powerful TrueNAS servers to date. Snazzy discusses the TrueNAS M-Series—from the unboxing to sharing a speed test—unveiling just how much power this \$60,000 system packs.

2) [Mark Rober! I Built You a Computer! - Double NAS Build](#) by Linus Tech Tips

Did you know that Mark Rober, one of the world's most followed YouTube creators, is running a server on TrueNAS to back up his videos? Watch Linus Tech Tips team up with Mark to design the ultimate TrueNAS system to meet the demands of his studio's high production workloads.

3) [TrueNAS CORE vs SCALE: Which is Right for You?](#) by Lawrence Systems

Tom Lawrence discusses the key similarities and differences between running TrueNAS CORE and SCALE, delivering a comprehensive 8-minute comparison between the two. By the end of the video, you'll have a better understanding of which software is right for you.

4) [How to choose your first home server! - Cheap and powerful home server!](#) by 2GuysTek

If you're looking to build your first NAS server, 2GuysTek is here to save the day! They share what factors you might consider while building your server in addition to providing a list of part recommendations to speed up the research process.

5) [INSANE PetaByte Homelab! \(TrueNAS Scale ZFS + 10Gb Networking + 40Gb SMB Fail\)](#) by Digital Spaceport

Get a behind-the-scenes look at building and running TrueNAS SCALE on a 1-PB home server, and perhaps even learn a "not-to-do" as you're building one.

Honorable Mentions

- [TrueNAS Scale Virtualization Features and How To Get Started Building VM's](#) by Lawrence Systems
- [How to work with containers in TrueNAS](#) by How To Make Tech Work from TechRepublic
- [I had VDEV Layouts all WRONG! ...and you probably do too!](#) by 2GuysTek
